

2010 PSJYFCL FOOTBALL COACH APPLICATION

Today's Date: _____

Coaching young people is an exciting way to be involved in sports but it isn't easy! Some coaches are overwhelmed by the responsibilities involved in helping athletes through their early sport experiences. That is not surprising, because coaching football requires more than bringing the footballs and any other equipment to the field and just letting them play. It involves preparing them physically and mentally, teaching proper techniques, teamwork, to compete effectively, fairly, and safely in their sport and providing them a positive role model.

Many coaches are parents, but the two roles should not be confused. As a parent, you are responsible only to yourself and your child, as a coach, you are responsible to the organization, all the players on the TEAM (including your child), and the parents. A coach assumes the responsibility of doing everything possible to ensure that the players on their team will have an enjoyable and safe experience while they learn proper technique and football skills. If you are ever in doubt about your approach, remind yourself that FUN, FUNDAMENTALS AND SAFETY are most important. Football should be fun. Even if nothing else is accomplished, make certain your players have fun! Take the fun out of football and you will take the kids out of football.

At PSJYFCL, football should mean to have fun, learn basic football technique, work as a team, and learn about football and how to play the game, how to hold up your head in a loss, and be honorable in victory. PSJYFCL is proud of the reputation we have built over the years, lets keep it that way. Before any person will be allowed contact with our children, they must first fill out the appropriate paperwork. Only approved coaches or helpers will be allowed to coach or assist with our players. The only exception to this statement will be league and game officials.
